## Message from President of FFN Malaysia and Organising Chair

Dear Esteemed Colleagues, Delegates and Industry Partners,

On behalf of the Fragility Fracture Network of Malaysia (FFN Malaysia), we are honored to extend warmest greetings to all of you as we welcome you to the 2nd Fragility Fracture Network Asia Pacific Regional Meeting, hosted here in the magnificent city of Kuala Lumpur, from the 13th to the 15th of June 2024. We are honoured that this meeting in Kuala Lumpur is also a collaborative effort between FFN Malaysia, Asia Pacific Osteoporosis and Fragility Fracture Society (APOFFS) and Asia Pacific Geriatric Network (APGN).

The theme for our meeting is **“Holistic Fragility Fracture Care, Driving Systemic Change”**.

Our commitment to advancing the field of fragility fracture care and prevention has brought us together from across the Asia Pacific region and beyond. To drive a systemic change, we need to work together with our concerted efforts to provide a holistic care for patients presenting with fragility fracture. This meeting is an exceptional opportunity for us to collaborate, exchange knowledge, and strengthen our collective resolve to improve the lives of those affected by fragility fractures.

Kuala Lumpur, with its blend of tradition and modernity, serves as an inspiring backdrop for our discussions and endeavours. As we delve into the various facets of fragility fracture management, I encourage you not only to engage in the rich intellectual discourse but also to savour the diverse cultural experiences and warm hospitality that Kuala Lumpur has to offer.

The challenges posed by fragility fractures are substantial, but so is our collective expertise and determination. Together, we can make a significant impact in improving the quality of life for those who suffer from fragility fractures, and we can work toward a future where such fractures are minimized through proactive prevention strategies.

Our programme for this meeting is thoughtfully curated to encompass the latest research findings, best practices, and innovations in fragility fracture care. It is my hope that the knowledge and insights gained here will empower each of us to make a tangible difference within our communities and healthcare systems.

I am excited about the connections that will be forged and the collaborations that will be initiated during this meeting. Let us embrace this opportunity to network, share our experiences, and inspire one another in our mission to reduce fragility fractures and their associated burden.

I wish to express my heartfelt gratitude to each one of you for your dedication to the field of fragility fracture management and your commitment to improving patient outcomes. Together, we can drive positive change and elevate the standard of care for those in need.

Once again, welcome to the 2nd Fragility Fracture Network Asia Pacific Regional Meeting. Let our time together be marked by fruitful discussions, enduring friendships, and a shared vision for a healthier, fracture-free future.

Warm regards,

**Joon Kiong Lee**

*Organising Chair of the 2nd Fragility Fracture Network*

*Asia Pacific Congress 2024*

*President of the Fragility Fracture Network of Malaysia (FFN Malaysia)*

## Message from President of FFN Global

Dear Esteemed Colleagues and Friends,

It is with great pleasure that I extend my warmest welcome to all of you to the 2nd Fragility Fracture Network (FFN) Asia Pacific Regional Congress in Kuala Lumpur. This gathering marks a significant milestone in our collective commitment to advancing healthcare and improving the lives of individuals affected by fragility fractures throughout Asia Pacific.

Fragility fractures are a pervasive and challenging health concern that demands our utmost attention. These fractures not only result in physical pain and disability but also carry a considerable emotional and economic burden for patients and their families. Addressing the multifaceted aspects of care for fragility fractures requires systematic, well-coordinated multidisciplinary teamwork to holistically deliver best practices.

Our congress theme, **“Holistic Fragility Fracture Care – Driving Systemic Change”** underscores the importance of a comprehensive approach to fragility fracture management. We understand that effective care extends beyond just the medical treatment of the fracture itself. It encompasses prevention, rehabilitation, psychological support, and the overall well-being of the patient.

By bringing together experts from diverse fields, we aim to foster interdisciplinary collaboration, share knowledge, and explore innovative solutions to improve the quality of care for fragility fractures. Our programme includes sessions on evidence-based treatments, surgical techniques, rehabilitation strategies, and the importance of secondary fracture prevention. We will also delve into the role of technology, telemedicine, and advancements in healthcare delivery in ensuring that patients receive the best care possible.

I encourage all participants to actively participate in the conference by sharing your research findings, clinical experiences, and insights. I look forward to productive discussions, enlightening presentations, and meaningful connections during the 2nd FFN Asia Pacific Regional Congress. Together, we can shape a brighter and healthier future for all those impacted by fragility fractures throughout Asia Pacific.

Thank you, and let us embark on this journey of knowledge and compassion.

Sincerely,

**Frede Frihagen**

*President of the Fragility Fracture Network*

## Message from Scientific Chair and FFN Regionalisation Chair

Dear Distinguished Colleagues and Participants,

It is our distinct honour and privilege to welcome you all to the 2nd Fragility Fracture Network Asia Pacific Regional Congress 2024 (2nd FFNAP 2024), themed around “Holistic Fragility Fracture Care - Driving Systemic Change.” On behalf of the FFN Regionalisation Committee of Asia Pacific and Scientific Committee of this prestigious gathering, we are filled with optimism and enthusiasm for the transformative discussions and insights that will unfold in the coming days.

Fragility fractures are not merely isolated medical events; they are emblematic of a broader healthcare challenge that touches the lives of millions around the world. They are indicative of underlying systemic issues in our healthcare systems, from prevention to treatment, rehabilitation, and beyond. Our theme, “**Holistic Fragility Fracture Care- Driving Systemic Change**” reflects our commitment to address the 4 pillars of fragility fractures comprehensively which include orthogeriatric approach in acute care, prompt rehabilitation, comprehensive secondary prevention and formation of national alliances to drive policy change.

Our conference provides a platform for leading experts, researchers, and practitioners from diverse fields to converge, exchange knowledge, and forge collaborations that can lead to significant systemic change. We will explore ground breaking research, evidence-based practices, and innovative technologies that can revolutionize fragility fracture care. Equally important, we will engage in dialogue about policy and structural changes necessary to ensure that holistic care becomes the standard of practice, rather than the exception.

As we embark on this journey, we encourage all participants to actively contribute their expertise, share their research findings, and propose strategies for driving systemic change in the realm of fragility fractures. Together, we can bridge the gaps in our healthcare systems, advocate for policy reforms, and foster a culture of prevention, compassion, and excellence in care.

We are eager to witness the inspiring discussions, collaborative efforts, and tangible outcomes that will emerge from this congress. Let us collectively pave the way for a future where holistic care is not an aspiration but a fundamental right for all individuals affected by fragility fractures.

## Advancing the Treatment of Osteoporosis in Very-High Risk Population

14<sup>th</sup> June 2024 (Fri) | 11:20 am – 12:00 pm | Lecture Hall A, Nexus 3

TIME

TITTLE

SPEAKER

11:20 am – 11:25 am

Opening Remarks

Dr. Lim Wan Chieh

11:25 am – 11:50 am

Optimising the Management of Fragility Fractures - How Can We Do Better?

Assoc. Prof. Khor Hui Min

11:50 am – 12:00 pm

Q&A & Closing Remarks

All

CHAIRPERSON

**Dr. Lim Wan Chieh**

Consultant Internal Medicine Physician & Geriatrician  
Hospital Taiping

SPEAKER

**Assoc. Prof. Khor Hui Min**

Consultant Geriatrician  
University of Malaya Medical Centre

		<b>Aseptic Loosening And Periprosthetic Fracture: Looking Beyond Surgical Care</b> Joon Kiong Lee <i>Orthopaedic Surgeon, Malaysia</i>	
1220	1300	<b>Closing Ceremony and Prize Giving</b>	
1300	1400	Lunch and Exhibit Visit	
		End of Congress	

15th June 2024, Saturday  
1400 hours – 1700 hours

# ISCD ORTHOPAEDIC OSTEOPOROSIS AND DENSITOMETRY COURSE

The ISCD Orthopedic Osteoporosis and Densitometry Course will offer the latest insight in osteoporosis treatment guidelines, diagnostic testing basics including the application and interpretation of bone densitometry, newer methods to assess bone health of fracture and elective surgery patients. This course is designed for orthopaedic surgeons, physicians, nurse practitioners, physical therapist, occupational therapist, radiology technologist and allied health professionals involve in the management of patients with fragility fracture. Attendees will gain clinically relevant knowledge to apply in their practices, ensuring consistent and effective bone health care in the future.

## Basic and Advanced Densitometry

Chanika Sritara  
Assoc Prof, Nuclear Medicine Physician  
Thailand

## Fracture Risk Assessment, Treatment and Treatment Monitoring

Julie Li Yu  
Assoc Prof, Rheumatologist  
Philippines

## Secondary Fracture Prevention

Wan Chieh Lim  
Geriatrician  
Malaysia

## Bone Health Optimization

Joon Kiong Lee  
Orthopaedic Surgeon  
Malaysia

## ISCD Course Pricing

Country	Registered Delegate of FFNAP 2024	Non-delegate of FFNAP 2024
Malaysian	MYR 50.00	MYR 200.00
International	USD 15.00	USD 50.00

TODAY**

# Interdisciplinary Allied Health Professional and Nursing Workshop

Theme: Interdisciplinary Care in Fragility Fracture

Open to Allied Health Professionals and Nurses who have registered for the congress. No additional fees.

**15TH JUNE 2024**

**1400 HRS – 1700 HRS**

Time	Topic	Speaker/ Facilitator
1400 - 1415	Opening Remarks: Holistic Care and Management of the Orthogeriatric Patient	<b>Karen Hertz</b> (FFN President-Elect) Specialist Nurse, UK
1415 - 1430	Perioperative Care from Nursing Perspective	<b>Eligio Razalan</b> (FFN Board Member) Nursing, Philippines
1430 - 1445	Mobilisation – Why Should this be Everyone's Business?	<b>Venisa Kwok</b> (Physiotherapist, Australia)
1445 - 1500	Optimizing Nutritional Strategies for Acute Fracture	<b>Mok Chu Zhen</b> (Dietician, Malaysia)
1500 - 1530	Tea Break	
1530 - 1545	Pharmacist Role in Fracture Liaison Service	<b>Patrick Tiew Wah Peng</b> (Pharmacist, Malaysia)
1545 - 1600	Discharge Planning and Fracture Liaison Service	<b>Fadzleen Johari</b> (Nurse Clinician, Singapore)
1600 - 1630	Group Discussion	
1630- 1650	Group Presentation	
1650 - 1700	Closing
