Following acceptance for publication, an electronic version of this document and other SIMPLER resources will be made publicly available at https://fragilityfracturenetwork.org. It is recommended to consult the online version provided by the Fragility Fracture Network (FFN), as it will be periodically updated to reflect the most current information.

Acknowledgements
This document has been created by the the (FFN) in partnership with The University of Iceland. FFN is a non-profit entity dedicated to improving nutrition care globally. FFN are grateful for corporate advisory committee and project funding from industry partners, including Nutricia. Industry partners have no control or influence over the content of the pathway, protocol, or toolkit resources.

We acknowledge all those who developed, implemented, and evaluated the initial multidisciplinary, multimodal nutrition care program initiated in The Prince Charles Hospital Hip Fracture Unit, Australia; the SIMPLE and SIMPLER Programs in Australia; and the More2Eat Program in Canada. We also acknowledge contributors to key foundational works, including the Nutritional Care of the Older Patient with Fragility Fracture chapter in the Orthogeriatrics textbook; the INTERFACE nutrition care module; and the Interdisciplinary Nutritional Management and Care for Older Adults textbook. Concepts from these works underpin the SIMPLER Nutrition Pathway for Fragility Fractures, Toolkit, and associated resources.

Special thanks to the FFN SIMPLER Implementation Steering Committee, the SIMPLER Sites Network, and pilot sites for their valuable input and collaboration in the development of this version of the toolkit.

Disclaimer: The content presented in this publication is distributed by the Fragility Fracture Network (FFN) as an information source only. The protocol, pathway, toolkit and all other resources are provided for educational purposes to support translation and implementation of evidence-informed nutrition care processes into local hospital settings. Translation should be supported by quality improvement or implementation theories, models and/or frameworks; we also strongly encourage application of principles of co-creation. The final tailored pathway, protocol and toolkit resources must be adapted to meet local contexts, ensuring all components adhere with relevant hospital quality assurance, policy, research and/or clinical governance processes.

FFN and The University of Iceland make no statements, representations or warranties about the accuracy, completeness or reliability of any information contained in this publication. FFN and the University of Iceland disclaims all responsibility and all liability (including without limitation for liability in negligence) for all expenses, losses, damages and costs that might be incurred as a result of the information being inaccurate or incomplete in any way, and for any reason reliance was placed on such information.

V1.0 Nov 2023	Co-design consultation draft adapted from SIMPLER Pathway and Toolkit
V1.1 Feb 2024	Incorporating FFN SIMPLER implementation Steering Committee
V1.2 Aug 2024	Incorporating feedback from SIMPLER implementation pilot sites
V1.3 Nov 2024	Incorporating additional feedback from SIMPLER pilot sites
V2.0 May 2025	Co-creation version for Phase II Implementation sites, consultation and endorsement
V2.1 October 2025	Minor changes including reference updates
