FFN Orthogeriatric Certification Program

FFN Fragility Fracture Network

Raising the Standards of Care for Fragility Fracture Patients

- A structured, internationally aligned program supporting hospitals to assess, benchmark, and improve Orthogeriatric Care
- Built around 8 core standards covering the full patient journey Combines self-assessment with expert review
- Designed to be practical, supportive and improvement-focused, helping develop plans to improve patient outcomes

Enhanced by access to FFN resources and mentorship

Participation includes:

- Structured self-assessment
- Review by international orthogeriatric experts
- Tailored recommendations for service improvement
- Formal recognition of engagement with international standards

8 Standards of Excellence

- Admission/Identification
- Clinical Pathways
- Audit and Performance Monitoring
- Staff Mix and Access To Orthogeriatric Expertise
- Staff Training and Education
- Patient/Family Goal Setting and Care Planning
- Patient and Family/Carer Education
